

First call for papers and special symposia proposals

Dear colleagues,

EuroHaptics 2010 will take place in the beautiful and exciting city of Amsterdam from July 8 until July 10. Topics addressed by the conference include

- Perception & Psychophysics
- Neuroscience
- Haptic Rendering
- Devices and Technology
- Medical & Rehabilitation Applications
- Art & Design Applications
- Collaborative Haptics
- Multimodal Interaction & Telepresence
- Tactile Display & Tactile Sensing
- Haptic HCI (Interaction, Visualisation)
- Entertainment and Educational Applications
- Haptic Cognition (link of haptic sensation to thought/cognition)

Papers can be accepted as poster or oral presentation. All accepted papers will be published by Springer (Lecture Notes on Computer Science). Templates are available at the EuroHaptics 2010 website. Paper length is 4 to 6 pages.

A special symposium day will precede the conference. Special symposia such as lectures or workshops can be either a full or a half day. Your one page proposed plan should include the names of the organisers and confirmed speakers.

We cordially invite you to submit papers and/or proposals for special symposia.

The submission for both papers and symposia opens on December 1. The deadline for submission is February 1. Submission of papers and symposia is through the website <http://www.eurohaptics2010.org>

We hope to see you in Amsterdam!

The EuroHaptics organising committee,
Jan van Erp
Jeroen Smeets
Astrid Kappers
Frans van der Helm
Peter Werkhoven
Wouter Bergmann Tiest
Tom Philippi
Anne-Marie Brouwer
